RESEARCH EXPERIENCE

Graduate Student Researcher, Summer 2016, 2016–17, Summer 2017, 2017–18, Mark Warschauer. US Department of Education Award R305A150429, Project 84.305A Digital Scaffolding for English Language Arts (IES Goal 3 Intervention). Digital literacy intervention using visual-syntactic text formatting in large, urban district with high number of English learners. Responsible for 2 school sites, communication with and observations of teachers at the sites. Led data collection and cleaning; quantitative data analysis including fixed effect regressions with clustered standard errors, structural equation modeling, confirmatory factor analysis; prepared for and presented at annual advisory board meeting; dissemination of results including drafting report to district, assisting in preparation of IES poster presentation, preparing journal articles. Assisted in preparation of grant proposals.

Graduate Student Researcher, Fall 2014; 2015–2016, Mark Warschauer. Drafted funding proposals, including successful Spencer Foundation Grant #201500153 (\$49,882) "From Keystrokes to Achievement Scores: The Main, Mediating, and Moderating Effects of Computer Use on Writing." Performed funded secondary analysis of NAEP 2011 writing assessment. Analyzed effect of prior use of computers at home and at school on writing achievement; use of the computer during the assessment at the keystroke level; determined model of relationship among prior computer use, use of the computer during the assessment, and writing achievement on the assessment.
